

# REMAL ALBAHR INSPECTION MARINE TRANSPORT

رمال البحر لمعاينة وسائل النقل البحري

## COMPANY PROFILE

# OUR COMPANY

we are experts in the marine survey inspection and marine survey services with precision and accuracy survey inspections for the target of successfully results main fleet and sea going vessels we are marine services providers for the seagoing vessel survey inspections with experienced qualified marine chief engineers and masters with strong background and knowledge in the marine industry and marine technology we are experts in ship survey with long experience in all types of vessels survey inspection .we have experience with all types of merchant ships with sailing onboard and seagoing vessels like tankers vlcc very large crude oil carriers and product tanker and chemical tankers and LPG carriers tankers and bulk carriers and container vessels and general cargo vessels and passenger ships we offered a trustworthy marine services with high standards of marine safety and health and environmental protection and with our qualified and experienced marine surveyors we are experienced in the offshore support vessels survey inspections for all types of supply vessels and anchore handling vessel inspections and machinery test including the dynamic positioning system vessel DP and none DP vessels survey inspection and DP trial and DP systems test and sea trials

An aerial photograph of a large container ship sailing on a blue ocean. The ship is heavily loaded with colorful shipping containers in shades of red, blue, and white. A smaller tugboat is visible in the distance. The text 'OUR VISION' is overlaid on the left side of the image.

# OUR VISION

ship management, marine inspection, and classification. We strive to deliver reliable and innovative solutions that ensure safety, sustainability, and efficiency across the entire maritime sector. By supporting both onshore and offshore oil and gas fields and facilities, we aim to drive progress and excellence, empowering our clients with trusted services that navigate the future of energy and marine transportation.

# OUR ACTIVITIES

# ONSHORE AND OFFSHORE OIL AND GAS

# FIELDS AND FACILITIES SERVICES

our company provides comprehensive services for onshore and offshore oil and gas fields and facilities, ensuring safe, efficient, and sustainable operations across every stage of the energy cycle. From exploration support and facility management to maintenance, inspection, and technical solutions, we deliver tailored services that meet the highest industry standards. With a focus on safety, reliability, and innovation, we help our clients maximize productivity while minimizing environmental impact in both land-based and offshore energy operations.

The background of the slide is a photograph of an offshore oil rig. The rig is a complex of steel structures, including tall derrick masts and various platforms, situated in the middle of a blue ocean under a blue sky with scattered white clouds. The rig's structure is primarily dark, with some yellow and red accents on the platforms and cranes.

# OUR ACTIVITIES SHIPS MANAGEMENT AND OPERATION

Our company specializes in ships management and operation, providing end-to-end solutions that ensure vessels operate safely, efficiently, and in full compliance with international maritime standards. We oversee all aspects of ship management, including crew management, technical maintenance, voyage planning, and regulatory compliance, while optimizing performance and cost-effectiveness. With a commitment to safety, reliability, and sustainability, we support shipowners and operators in achieving smooth operations and maximizing the value of their fleets.

# OUR ACTIVITIES VESSEL INSPECTION

**Our company provides specialized services in the inspection and classification of marine means of transportation, ensuring the highest levels of safety, quality, and compliance with international maritime regulations. We conduct thorough inspections and assessments of vessels and marine equipment to verify their seaworthiness, reliability, and operational performance. Through our classification services, we help shipowners and operators maintain adherence to industry standards, minimize risks, and enhance the longevity and efficiency of their fleets. We take safety factors into account and apply international safety standards and the ship meeting the safety requirement and safe operation .**

A person wearing a white hard hat and a high-visibility orange safety vest is seen from the side, looking out over a ship's deck. The background shows various ship structures, including railings and a control room, with a hazy sea in the distance.

# OUR ACTIVITIES

# YACHT INSPECTION

# AND CLASSIFICATION

Our company offers professional inspection and classification services for marine yachts, ensuring they meet the highest international standards of safety, quality, and performance. We conduct detailed assessments covering structural integrity, mechanical systems, safety equipment, and compliance with maritime regulations. Through our classification services, yacht owners benefit from enhanced reliability, operational efficiency, and long-term asset value, while enjoying peace of mind on every voyage

The background image shows two men in industrial settings. They are wearing yellow hard hats and high-visibility safety vests. The man on the right is holding a laptop and pointing towards the background, while the man on the left is looking at the laptop. They appear to be at a port or shipping yard, with shipping containers and a crane visible in the distance under a hazy sky.

## OUR SERVICES

# PRE PURCHASE INSPECTION FOR ALL MERCHANT SHIPS TYPES

- product oil tankers
- Crude oil tankers
- Chemical tankers
- LPG Carriers
- LNG Carriers
- Very large crude oil carriers (VLCC)
- Container vessels
- Bulk carriers
- General cargo
- Car carriers
- Passenger ships

## OUR SERVICES

# OFFSHORE SUPPORT VESSEL GENERAL CONDITION SURVEY

- Pre purchase survey inspections
- Sea trial
- DP TRIAL
- ANCHORE HANDLING Winchs hydraulic capstan and hydraulic equipments test and tugger winches
- Test jaw shark hydraulic and operation test
- Towing tug survey inspection
- Offshore support vessels Dynamic positioning system equipment and systems test
- None DP vessels survey inspection
- on hire and off hire survey inspection
- Insurance server
- P&I
- Hull and machinery

A large cargo ship is being lifted by a crane at a port. The ship is dark grey with a red hull. A surveyor in a white hard hat and orange safety vest is in the foreground, holding a clipboard. The background shows a blue sky with clouds and other port infrastructure.

**OUR SERVICES**

# **VESSELS ON-OFF HIRE CONDITION SURVAY**

**Vessel off hire condition survey . After end of charter agreement or termination of a charter contract, an off-hire ship inspection to be carried out to assess the vessel's condition upon its redelivery to the owner. This inspection aims to verify that the ship has been maintained according to the terms of the charter party to be identify any damages, excessive wear, or missing equipment that may have occurred during the charter period. Surveyors check key areas such as the hull, machinery, cargo spaces, and safety equipment, and they compare their findings with the condition documented at the time of delivery. The results of the off-hire inspection help determine any necessary repairs or compensation, ensuring a fair settlement between the charterer and the shipowner**

The background image shows a large, dark-colored ship's hull with a prominent red section. Two workers wearing white hard hats and high-visibility yellow vests are visible in the foreground, looking towards the ship. The sky is blue with some clouds. The text is overlaid on this image.

OUR SERVICES

# HULL AND MACHINERY SURVEY

**P&I inspection . A P&I Inspection is a survey conducted on behalf of a Protection and Indemnity (P&I) Club to evaluate the condition, safety, and operational standards of a vessel. The inspection focuses on areas such as hull integrity, machinery, safety equipment, navigation systems, and compliance with international regulations. Its main purpose is to identify potential risks that may lead to claims, accidents, or liabilities, and to ensure that the ship operates in line with industry best practices. By carrying out such inspections, P&I Clubs protect both the shipowner and the insurer from unnecessary exposure to risks**

## OUR SERVICES

# MARINE CONSULTANCY

- Marine Technical experts
- Marine Engineering consultancy
- Ships dry dock experts
- Marine engines overhauling experts
- Marine engine damage and repair experts
- Engine performance test experts
- Marine expert witness
- Marine technical superintendent

An aerial view of a large tow barge on a river. The barge has a white cabin with multiple windows and antennas. The deck is orange and features several large rectangular hatches. The river is calm, and the background shows a shoreline with green trees and some industrial structures.

## **OUR SERVICES**

# **BARGES**

### **None propeller barges**

- Towing barges inspection
  - General condition survey
  - Pre purchase inspection
  - On hire general condition survey inspection
  - Off hire general condition survey inspection
  - Towing arrangements inspection
  - Barges certification
  - Barge side wall damage condition survey inspection
  - Barge comparison between on hire general condition and off-hire condition after complete contract
  - Barges emergency towing arrangements inspection
  - Barges equipments and pumps general condition survey
  - Barges safety equipment inspections
- Hull condition general inspection**

# OUR SERVICES

## JACK UP BARGES

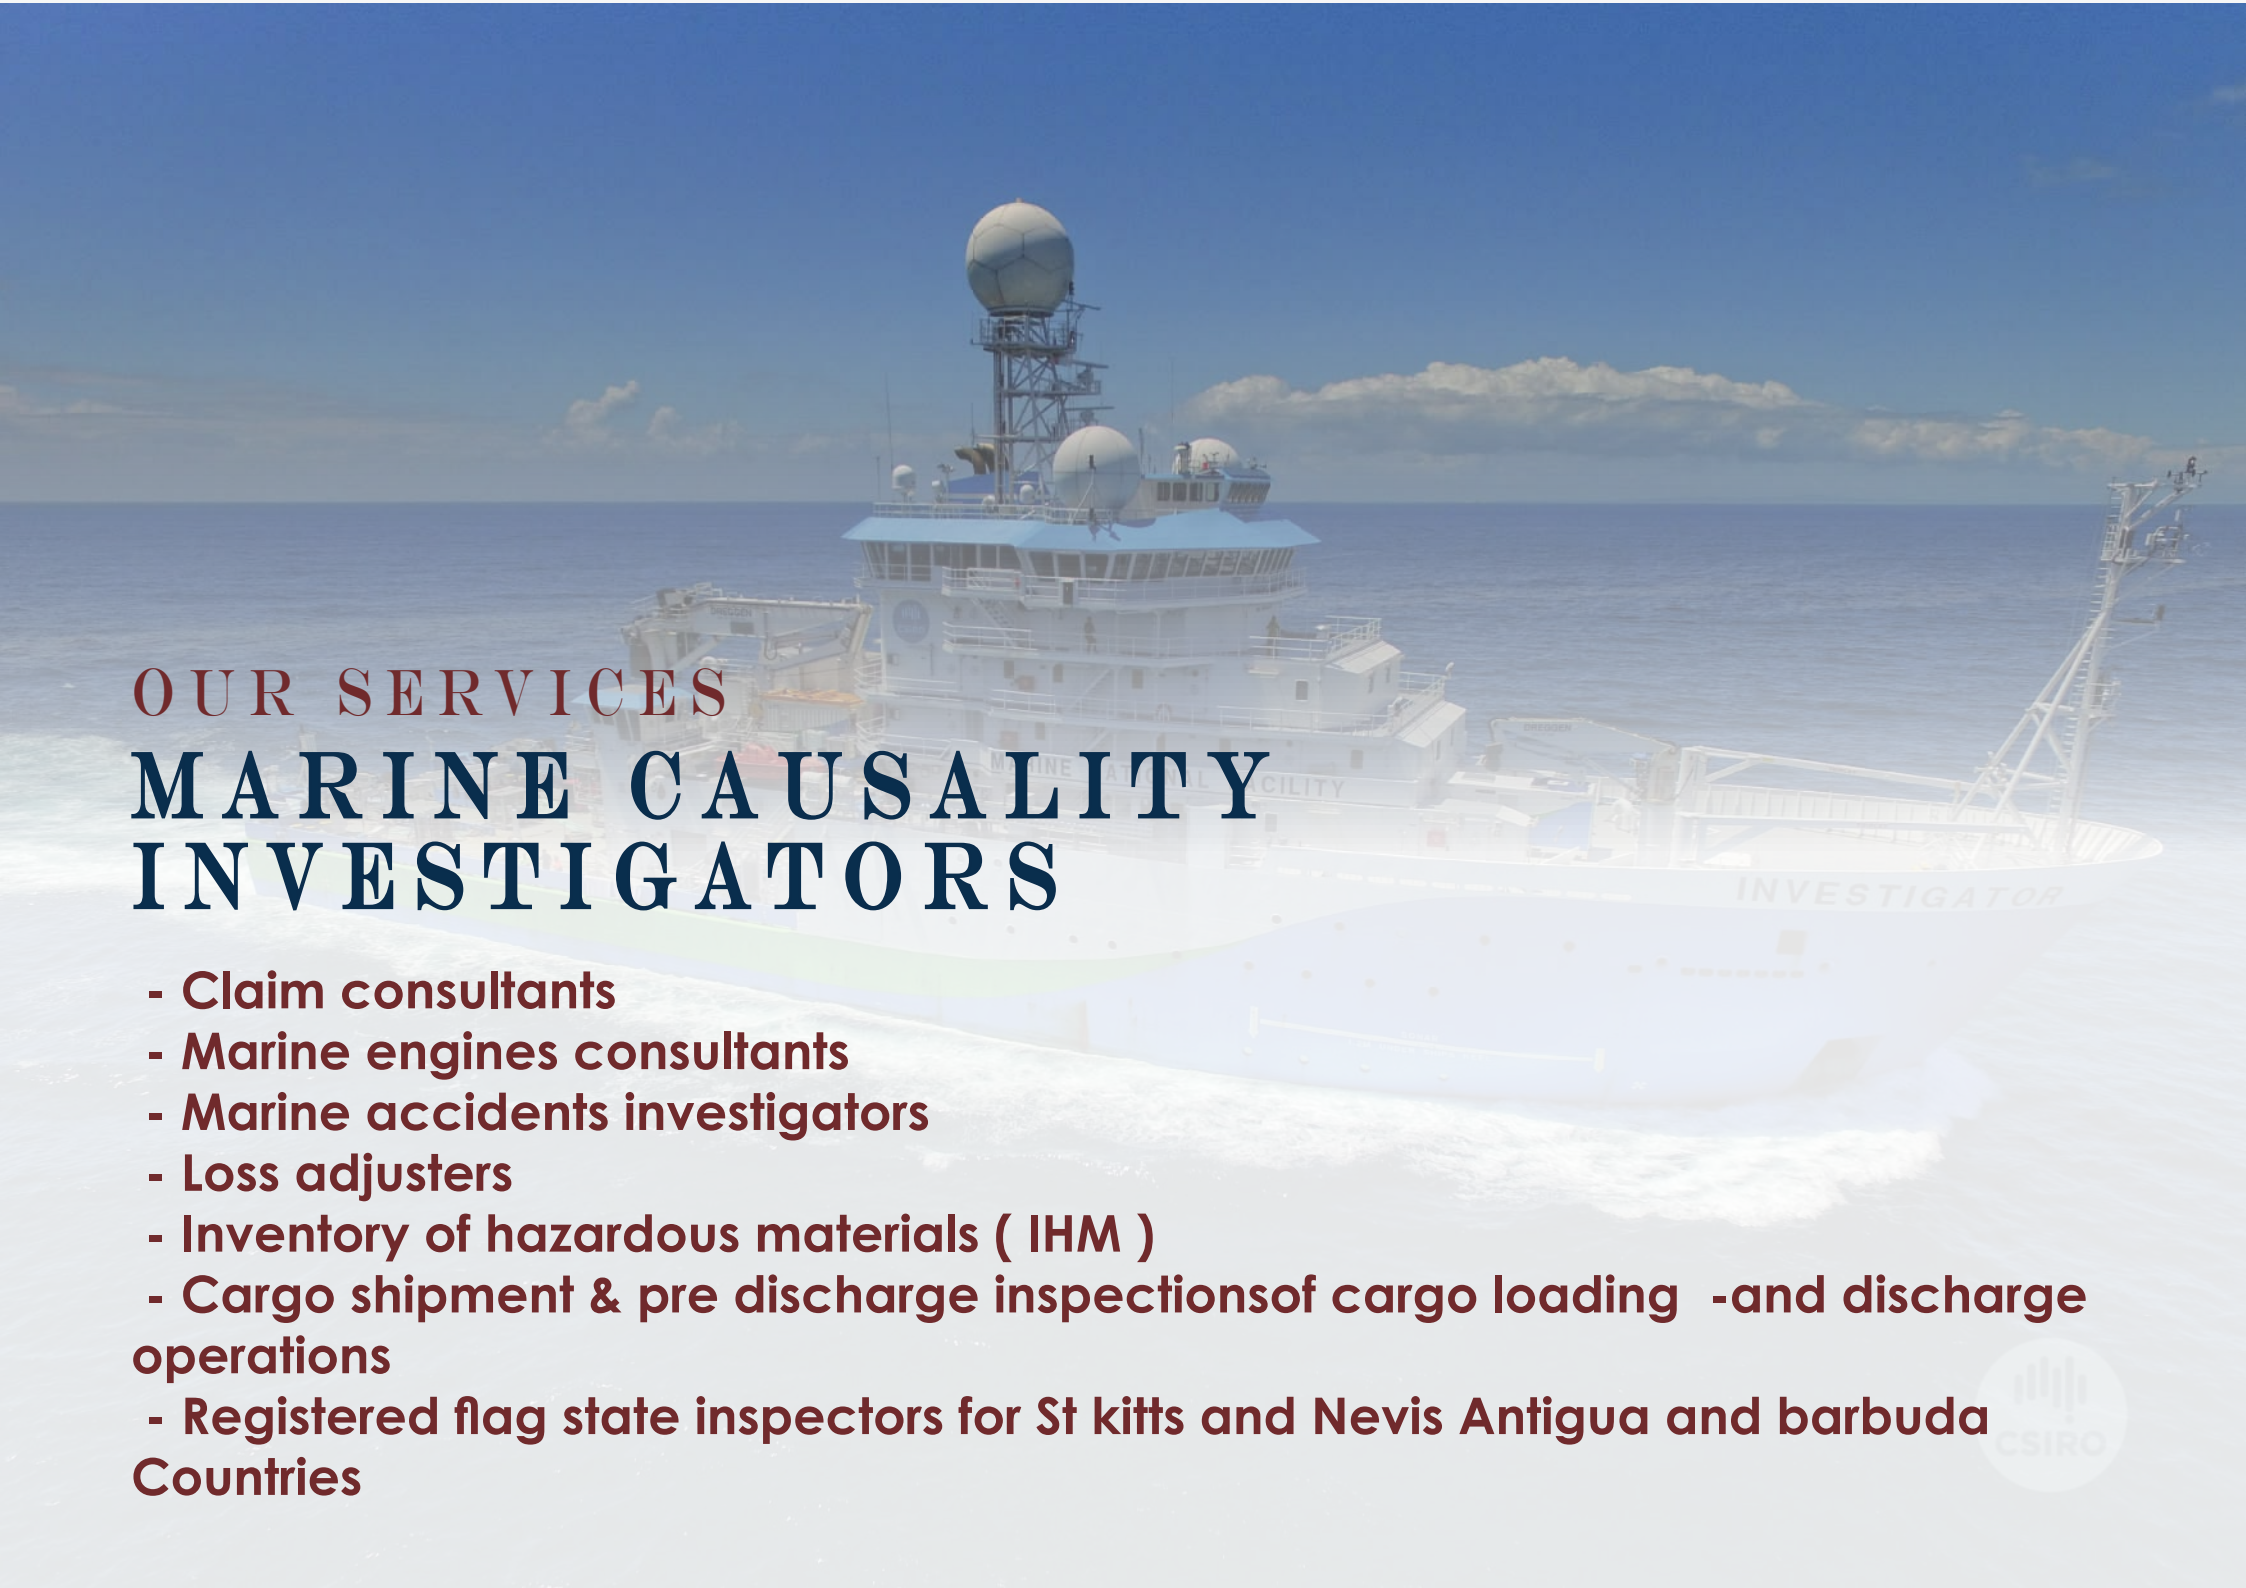

- Self propeller jack up barges
- None propellers jack up barges
- Jack up barges inspection
- General condition survey
- Pre purchase inspection
- Hull and machinery survey inspection
- Insurance survey inspection
- Hydraulics system test and inspection
- Jack up legs operation test
- general condition inspection
- Barge machineries inspection
- Safety equipment survey inspection

# OUR SERVICES

## MARINE CAUSALITY INVESTIGATORS

- Claim consultants
- Marine engines consultants
- Marine accidents investigators
- Loss adjusters
- Inventory of hazardous materials ( IHM )
- Cargo shipment & pre discharge inspectionsof cargo loading -and discharge operations
- Registered flag state inspectors for St kitts and Nevis Antigua and barbuda Countries

## OUR SERVICES

# CARGO/CONTAINER

- Pre Shipment & Pre-discharge Inspection of Cargo
- Cargo loading & Discharging Operations
- Inspection of Cargo Holds Fitness
- Sealing & Unsealing of cargo Holds/Hatches
- Cargo Damage Survey on Commodities & Perishables
- Containers Inspections, Damage & Draft Deadweight Survey -Bulk Cargo Quantification & Draft/Deadweight Survey
- Cargo Superintendency & On Board Planning (Port Captain) -Liquid Cargo Contamination Investigations & Quality Disputes -Inspection of Lashing & Securing
- Cargo Sampling for analysis & Testing by Recognised Laboratory

# OUR SERVICES MARINE

- Accident & Casualty Investigation
- Vessel Damage Survey
- Vessel Condition Surveys for finance & purchase purpose
- Hull & Machinery Surveys, damage & repairs assessment - Charter party disputes between Owners & Charterers
- Delivery & Redelivery Vessel Condition & Bunker Surveys
- Boat & Pleasure Craft Surveys
- Stowaway Investigation & Assistance in Repatriation - Bunker/Slop/Pollution & Contamination Investigation
- Ship Repairs/Dry-Docking Superintendency
- Class & Statutory Surveys
- Flag State inspections

# MR SAMEH ABD EL ALIM

## COMPANY GENERAL MANAGER

Marine chief engineer . ADNOC SSS Approval .Marine surveyor Technical expert . Marine consultant . Flag state inspector . He is a marine industry expert with long experience and strong background in all types of vessel and marine units inspection . He was sailing more the 25 year onboard merchant ships and offshore support vessels and dynamics positions DP vessels . He is our company unique member and experienced service provider . He was an invited as marine expert speaker in the offshore support vessel conference for three seasons he was honoured the excellency speake award and he was invited as marine expert speaker in the sustainable costal development MENA FORUM at DUBAI 2024
